

career framework project

Help shape a framework for our careers

As teachers and principals we are focused on improving learning outcomes for all children, growing a love of learning and helping every student reach their potential.

In order to provide the best possible education, we need to be empowered and supported to reach our own professional potential.

Your union has been working on a conceptual model for a new career framework.

Over the next few weeks, teachers and principals will be gathering to discuss the concept, and provide valuable input to help shape a career framework fit for Aotearoa New Zealand in the 21st Century.

Join with your colleagues in this once-in-a-generation opportunity to shape the future of our profession.
