Exploring the NZ Digital Technologies Curriculum with iPad

Coding is an essential skill that teaches problem-solving, develops teamwork and inspires creativity. We believe coding is an essential skill. So we've designed a new approach to coding that lets anyone learn, write, and teach it. Join us to learn how you can engage students from Year 1-8 in the world of coding on iPad. Get hands on with visual-based apps, Swift Playgrounds and Everyone Can Code resources designed for teachers.

You'll also have an opportunity to explore Apple Teacher, a free online professional learning program designed to unlock the power of iPad and education apps in your classroom. Be inspired by free learning materials, tips, news and inspirational stories of teachers using iPad in amazing ways.

iPads, and teacher guides will be provided for you to use on the day.

Wednesday 19 September 2018
1:30pm to 5:00pm

Glenview School
Bruce Avenue, Glenview
