

It's our 10th anniversary and to celebrate, our award-winning* **ASB GetWise** programme is doing more than ever to equip students with the skills they need to make smarter decisions about their money.

Developed in consultation with leading education experts, ASB GetWise provides professionally delivered face-to-face workshops, resources, and an interactive online learning platform as part of a comprehensive package that builds across year levels.

The ASB GetWise programme is provided completely **FREE** of charge to Primary and Intermediate schools all over New Zealand and does not promote any bank products or services.

Primary Programme

Our dynamic and engaging Primary Programme covers a range of financial literacy topics for the following year levels;

Year 0 - 2 - interactive, fun, and practical downloadable teacher resource materials mapped to the New Zealand curriculum to support teacher-based learning.

Year 3 - 4 - a 45-minute face to face professionally facilitated workshop with accompanying teacher and parent resource activities and games.

Year 5 - 6 - a choice of ONE or TWO professionally facilitated 45-minute workshops with accompanying teacher and parent resources, activities and games.

Topics covered include;

- Learning to Save, Spend, and Share.
- Distinguishing the difference between 'needs' and 'wants'.
- Basic goal-setting using common savings tools and techniques.
- Creative ways to earn and spend your money wisely.

Intermediate Programme

The ASB GetWise Intermediate Programme steps things up to bring high quality workshops with digital augmentation and an online learning platform.

Year 7 - 8 components include;

- A choice of ONE or TWO professionally facilitated 45-minute to one-hour workshops with accompanying teacher and parent resources activities and games.
- One workshop includes a cosmic-themed comic book and Augmented Reality (AR) technology experience, for greater engagement.
- Access to an interactive 8-module online learning platform to test student skills and learning within an exciting spy-based theme.

Teacher resources

All year levels are supported by tailored teacher resources that can be used before and/or after a facilitator's visit for maximum engagement. These resources range from quick 15-30 minute exercises to term-long projects, easily adapting to the changing needs of a busy classroom.

Curriculum mapping

All workshop content and teacher resources are mapped to the New Zealand curriculum and the Financial Capability Progressions of Learning developed by the Ministry of Education to ensure that what is being taught supports your school's curriculum.

Available everywhere

Creating cash clever Kiwis is our goal. To fulfil this challenge, our programme facilitators travel as often as possible to regional areas and beyond for students and schools in need, while our online portal remains accessible for all Year 7 and 8 students no matter where they live!

"I just wanted to let you know that in my 20 years of teaching and being in school leadership I haven't seen someone come in to a school and be so engaging with kids about such an important message. Your presentation was quite superb."

- Tim Nelson, St Mary's School, Carterton
