- » PB4L Data

PB4L Restorative Practice Workshop

PB4L Restorative Practice is based on a set of best practice tools and techniques to support a consistent and sustainable approach to strengthening positive, respectful relationships within the school, and to enable issues to be more easily managed.

Restorative Practice has four underlying principles:

- » Positive interpersonal relationships are a major influence on behaviour
- » A culture of care supports the mana of all individuals in the school community
- » Cultural responsiveness is key to creating learning communities of mutual respect and inclusion.

A restorative approach leads to individuals taking responsibility for their behaviour.

Keynote presentations, School poster displays, Networking and for the first time visit with the team from the PB4L Sector Group at the Ambassadors Club
